SUMMARY

I am a data leader with a passion for solving hard, real-world problems at the nexus of mathematics, data, software, people, and process. My goal is to accelerate climate change solutions using my expertise in building and managing data-driven products.

EXPERIENCE

Hasha Data Science, LLC

December 2022 - Present

Principal

Mission Lane

January 2023 - Present

Staff ML Engineer

Advancing Mission Lane's machine learning automation and model risk management strategy by implementing frameworks for automated model development, validation, and monitoring.

Persefoni

June 2021 - August 2022

Senior Director of Data Science

Persefoni is a leading carbon accounting SaaS firm. I led the engineering pod responsible for building the data and software architecture to implement calculations of greenhouse gas emissions aligned to the [GHG Protocol](#) for corporate emissions and the [PCAF standard](#) for financed emissions.

- Developed ETL pipelines and database structures to integrate third-party emission factors with the calculation engine
- Introduced documentation and testing processes that reduced the frequency and severity of calculation errors as well as key-person dependencies.
- Developed algorithms to compute proprietary emission factors and to recommend emissions calculation methods based on the user's available data

Capital One

2012 - 2021

Divisional Model Risk Officer: Technology, Digital, and HR

2017-2021

Led the model validation and risk management for machine learning models in diverse business domains, including chatbots, cybersecurity, data management, marketing optimization, hiring, identity verification, and fraud. My team upheld standards of practice, ensured regulatory compliance, and enabled informed executive decision making through independent evaluation of machine learning technologies.

Technical Product Owner, Enterprise Machine Learning Platform

2019-2021

Defined requirements and prioritized the backlog for three engineering pods responsible for Capital One's first successful enterprise cloud platforms for model development, analytics, and batch model deployment, enabling thousands of internal analysts to harness the power of open source in the public cloud.

Senior Director of Data Science, Digital Innovation Labs

2012-2016

Led a modeling team with the mission to prove out the business potential of machine learning and open source tech:

- Increased accuracy of Bundle's ML matching algorithms to 99% precision, meeting acceptance criteria for roll-out to all Capital One customers' digital transaction ledger.
- Operationalized the model as Capital One's first production use case of Hadoop and Python
- Developed a software framework for building and deploying ML pipelines that was adopted by multiple teams.
- Evangelized open source collaboration methods and software engineering best practices across Capital One's Data Science community.

Bundle.com

2010 - 2012

Lead Data Scientist

Led a team of developers and data scientists building consumer-facing data products based on billions of credit card transactions.

- Developed a machine learning pipeline to power Bundle’s core product, a merchant review website
- Hired and led a team to scale the data product and bring it to market
- Worked with CEO to pitch company for acquisition, and led the technical due diligence process in the company’s acquisition by Capital One

Citigroup

2008 - 2010

Associate, Mortgage Backed Securities Modeling

Worked on the agency mortgage prepayment modeling team and supported the term structure modeling team.

EDUCATION

Courant Institute of Mathematical Science – NYU

Ph.D. in Mathematics, GPA: 4.0/4.0, Advisor: Oliver Bühler

Thesis Title: “Gravity wave refraction by three-dimensionally varying winds and the global transport of angular momentum in the atmosphere”

Cambridge University – Trinity College

Master of Advanced Study in Mathematics with Merit

Massachusetts Institute of Technology

Bachelor of Science in Mathematics, GPA: 5.0/5.0, Phi Beta Kappa

VOLUNTEERING

Sustainable Milton

December 2020 - Present

Board Member

2022 - Present

Partnering with local non-profits to build a community taking action on climate change. .

Milton Climate Action Planning Committee

December 2020 - Present

Co-chair and Secretary

June 2023 - Present

Leading the development and implementation of the Climate Action Plan for the town of Milton, MA.

Interfaith Social Services

June 2022 - December 2022

Food Pantry Worker

I work a weekly three-hour shift stocking and bagging groceries for Interfaith’s food pantry clients.
